“My husband suffered cardiac arrest on Feb 19. At a stressful time, it was one less thing to worry about... My DocuBank card really saved the day for me.”

Living wills are unavailable in 75% of the situations when they are needed.

Where will yours be when you need it?

Always PREPARED

When you carry the **DocuBank Card**, doctors and loved ones have immediate access to your emergency medical information and health care directives — anywhere, anytime, 24/7/365.

In a medical emergency, minutes matter. If you're hospitalized and medical staff don't know your pre-existing conditions and allergies, care can be delayed or compromised.

If your condition is dire and loved ones don't have access to your health care directives, they can be denied the decision-making power you want them to have, or suffer the stress of making fateful decisions without knowing your wishes.

But when you carry the **DocuBank Card** in your wallet, all of your vital medical information and health care directives are with you. There's no guesswork for doctors or loved ones because you are prepared.

"My nurse was so impressed with the ease with which she got my advance directives and medical history, she took down DocuBank's phone number so she could get one for her father!"

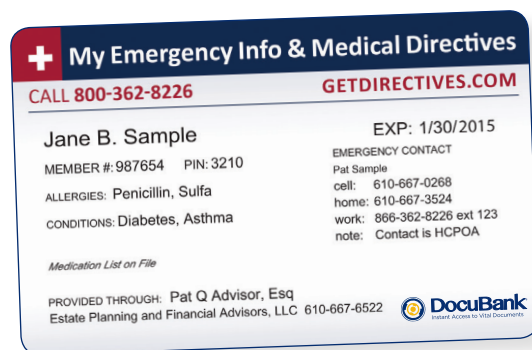

— G. Roberts, Member since 2005
Lansing, MI
